

Emphasising Service

Lions Quest programs emphasise service. Lions Clubs can become involved with a Lions Quest classroom by helping implement service-learning projects, giving students opportunities for meaningful participation, contribution and recognition.

Lions Clubs can also serve as partners to schools implementing Lions Quest programs by providing financial support for training workshops and student materials, and by assisting schools in creating a positive learning environment.

Lions Quest Promotes School and Life Success

Lions Quest Australia is a project of the Australian Lions Drug Awareness Foundation.

Lions Quest

A Program of Lions Clubs International Foundation

Uniting Lions Clubs and schools in a quest to teach skills and nurture the social and emotional wellbeing of young people.

- ✓ **Teaching** young people skills necessary for everyday success.
- ✓ **Providing** high-quality, research-based classroom resources for teachers and age-appropriate learning material for students.
- ✓ **Presenting** opportunities for students to learn and practice skills that build and enhance positive relationships.
- ✓ **Involving** the family and community in supporting the healthy development of young people.

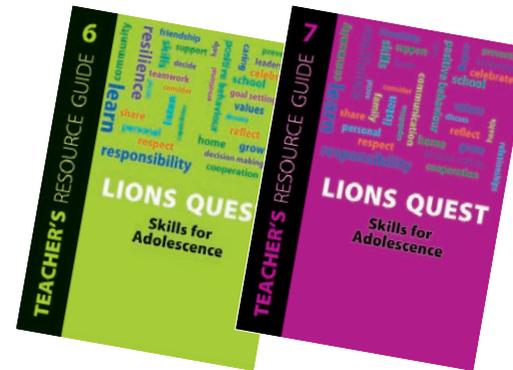

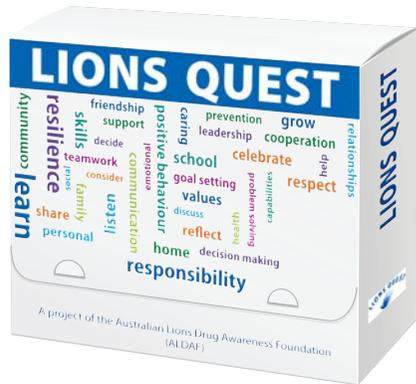

School implementation

After deciding to implement Lions Quest, the first step is to involve teachers in a Lions Quest teacher accreditation workshop.

This practical and engaging one-day professional development experience offers comprehensive preparation for classroom or whole-school Lions Quest implementation.

Lions Quest program components

Skills for Growing Foundation – Year 5

The primary school years are the prime time to teach attitudes and skills that will help all children thrive. Lions Quest *Skills for Growing* capitalises on the enormous potential of children and directs their energies into becoming capable and healthy young people with a sense of direction, solid skills, and a commitment to their families, schools and communities.

Skills for Adolescence Years 6–8

Young people entering adolescence face a myriad of social and emotional challenges. They question themselves and those around them, reassess values and behaviours and test limits. Helping adolescents deal with these challenges requires long-term, comprehensive efforts in which the family and school work together to support their healthy development. Lions Quest *Skills for Adolescence* provides the ideal framework to achieve this.

Included in all year-level teaching kits

Universal Program Guide includes the program rationale and overview, classroom implementation models and guidelines for effective schoolwide implementation. The Guide also includes strategies for creating a relationship-centred classroom, developing a positive school climate and implementing service learning.

Digital Resources USB Drive contains slides for use in lessons, Family Connection take-home worksheets and the Families as Partners book.

Families as Partners. Found on the digital resources drive, this Guide provides all the information and resources needed to lead parent meetings in conjunction with *Skills for Growing* and *Skills for Adolescence* implementation.
